Enzo PINCHON

Student Researcher Intership

Open to worldwide opportunities.
Actively seeking an internship for the summer of 2025.

EDUCATION

2024 - 2026

Master's Degree in Data and Artificial Intelligence (First Year)
Institut Polytechnique de Paris (Paris, France)
International program focused on Data Science, Machine Learning, and Artificial Intelligence.

2021 - 2024

Bachelor of Computer Science, Application Development Track with Two Years of Work-Study - *Université Picardie Jules Verne (Amiens, France)*

Courses completed: Mathematical Modeling, Decision Support, Advanced Programming, Algorithmic Quality, Advanced Virtualization

2018 - 2021

High School Diploma, Major in Mathematics and Computer Science
Lycée Pierre Corneille (Rouen, France)
Graduated with Honors

PROFESSIONAL EXPERIENCES

2022 - 2024
Work-Study Program

IT Engineer Apprentice - Holdys (Petrochemical Industry) - *Yvetot, France*
Conceptualization and development of an application for managing quality processes and optimizing delivery scheduling. Ensured user support, maintenance, and data visualization.

Skills developed: software programming, agile methodology, data analysis, autonomy, Python (Django framework) and SQL.

July - August 2022

Magento Developer - Luzaka (E-commerce) - *Malaunay, France*
Developed custom modules for the Magento 2 CMS and redesigned the website's interface based on mockups. Deployed a new version of the CMS.

ACADEMIC PROJECT

Sept 2023 - April 2024

Final Year Project - *Université Picardie Jules Verne*
As part of a team of four, we developed a web application for school schedule management. I designed the API and implemented a schedule generator based on Machine Learning algorithms.

TECHNICAL SKILLS

English B2 - Score TOEIC 865, fluent
Spanish A2 - intermediate
Python, SQL, C/C++, C# Advanced
JS, PL/SQL, NoSQL, PHP Basic

Docker, Docker Swarm, GitHub
Office 365, Google office suite, Trello, Asana, Canva
